# Pre Load Strikes for Cylindrical Locksets

**CX-EPD2850L**

EZ Fit™ 'No Cut' Model

**CX-EPD2000L**

Choice of 4 Faceplates

# Up To 65lbs Pre Load Force

Difference in air pressure, weather sealing and warped doors can force latch against strike keeper

Force against the keeper of standard strikes can prevent them from operating.

**'Next generation' Pre Load strikes are now being introduced by a number of manufacturers to eliminate this problem.**

**Camden Offers a High Pre Load Rating And The Most Field Adjustability Of Any Strike On The Market.**

# 20 Series 'All In One' Strike Design
